How to Change Your Homepage (Home page) in Internet Explorer

Your Homepage is the page that automatically loads when you open a browser such as Internet Explorer. When you open Internet Explorer on your computer for the first time the homepage may be that of your Internet Service Provider (ISP) or some other page you would like to change - here's how.

1. Open Internet Explorer
2. Open the Webpage you wish to have as your Homepage.

* In this instance we have opened the **Google Search Engine Page** at URL (uniform resource location) <http://www.google.co.uk>. We are setting this page as the Homepage.
3. Left Click "Tools" ("A" right) and in the dialog box the opens click **Internet Options** (as below)

4. The **Internet Options** dialog box opens (right) and to set the **Google Search Engine Page** as the Homepage Left Click "Use current" ("C" right).
5. Click "OK"

The **Google Search Engine Page** will now load/open when Internet Explorer is opened.

Other Options in the **Internet**

Options dialog box:

* Type the URL of the webpage you wish to set as the **Homepage** in box "B" right and click "OK".

* Click "Use default" and then "OK" to set the **Homepage** to that initially set for the computer.

* Click "Use Blank" and then "OK" to have a **blank Homepage**.
